HARDWARE			
<p><i>Push is an instrument that puts everything you need to make music in one place—at your fingertips. Making music is hard. To stay in the flow, you need to be able to capture your ideas quickly, and you need technology to stay out of the way. Computers make it possible for one person to create whole worlds of sound. But instruments are where inspiration comes from. Push gives you the best of everything. It's a powerful, expressive instrument that gives you hands-on control of an unlimited palette of sounds, without needing to look at a computer.</i></p>			
<p><i>Push 2 works with Ableton Live 9.5 or higher. Live runs on your Mac or PC and provides multitrack recording, instruments, effects, and everything else you need to make music.</i></p>			
<p>Includes:</p> <ul style="list-style-type: none"> • Push 2 hardware • Universal Power Supply 100-240VAC, 50/60Hz with interchangeable heads for North/Central America & Japan (Type A), China (Type A & I), Europe (Type C), UK (Type G), Australia & New Zealand (Type I) • USB cable 1.40m (55.12 inches) • Quick Start Guide • Download version of Live 10 Intro.

ABLETON LIVE

Live is fast, fluid software for music creation and performance. Use its timeline-based workflow or improvise without constraints in Live's Session View. Advanced warping lets you change the tempo and timing of any audio in real time without stopping the music. Record virtual instruments, drum machines, guitars or audio from the real world. Capture MIDI notes after you've played them, turning your most spontaneous ideas (and happy accidents) into music.

Live's effects, instruments, sounds and creative features let you make music only limited by your imagination. Use Live's native devices as the foundation of sound design or mold and shape a range of carefully curated Packs into something new. Since the software keeps everything in time, Live is also perfect for on-stage improvisation and hands-on play—customize the software to fit your performance, not the other way around. And with Push, Ableton's instrument built specifically for Live, you get all the functionality of software with the immediacy of hardware.

Ableton Live

Ableton Suite 10

Multitrack Audio recording and MIDI sequencing of software and hardware instruments • Unique Session View for nonlinear composition, flexible performance and improvisation • Real-time warping of audio: automatically sync music and loops, regardless of tempo • MIDI-mappable controls for hands-on creation onstage or in the studio - plus automatic mapping for popular hardware controllers • Audio to MIDI conversion tools: extract harmony, melody or drums from an audio sample and convert it into MIDI. • Comprehensive selection of built-in audio effects for creative sound design, mixing or mastering • Advanced sampling and slicing tools • VST and Audio Unit support • Groove engine to apply swing to audio or MIDI, or extract rhythmic 'feel' from other audio files • Video import and export for scoring to video or warping video to music • Built-in Max for Live software with more instruments, audio and MIDI effects, and the ability to customize Live • Instruments, effects and sounds: 10 instruments: Wavetable, Operator, Sampler, Analog, Electric, Tension, Collision, Simpler, Drum Rack, Impulse - plus Instrument Racks and the External Instrument device • 57 audio and MIDI effects, including Drum Buss, Echo and Pedal • 5000+ sounds • 70+GB of loops and samples
