## Power Amps

### CS Series

Building on the reputation of the world-famous Peavey CS® 800, which conquered the power amp market in the 1970s, the CS® Series is the global standard bearer for workhorse reliability. Over the years, these amps have benefited from some of Peavey's most popular audio innovations, including our exclusive DDT™ compression/anti-clipping protection. With its 2RU design and power points up to 4080 watts, this latest evolution of the CS® Series is leaner, louder and lighter than ever.

 <b>CS® 4080HZ</b>	14367115482	511200	2499.95
2 x 2040w @ 4 ohms / 2 x 1250w @ 8 ohms / 4080w mono @ 4 ohms			
 <b>CS® 4000</b>	14367115475	511100	2199.95
2 x 2000w @ 2ohms / 2 x 1350w @ 4ohms / 2 x 800w @ 8 ohms			
 <b>CS® 3000</b>	14367115468	511050	1999.95
2 x 1550w @ 2ohms / 2 x 1065w @ 4ohms / 2 x 650w @ 8 ohms			
 <b>CS® 2000</b>	14367115451	511000	1599.95

2 x 700w @ 2ohms / 2 x 500w @ 4ohms / 2 x 330w @ 8 ohms			

### IPR-2 Series

Shaking up the pro audio industry with innovative power amplifier designs has become our stock in trade. More than 30 years ago, we were the first to break the dollar-per-watt barrier. Not long after that, we became the first manufacturer to mass-produce a class-D amplifier for use in live audio applications. We debuted our first switchmode power supply over a decade ago. Then in 2009 we launched the IPR™ series and once again Peavey revolutionized the power amp industry. Now we introduce the refinement of that amazing technology with improved performance and reliability, the Peavey IPR™2 Series.

<b>IPR® 2 7500 DSP</b>	014367153477	3004510	2499.95

## Processors & Power

### Dual DeltaFex

The Dual DeltaFex® is like having two multi-effects units in one, providing powerful digital signal processing with flexible dual audio connections in a single rack space. Perfect for studio or live applications, the Dual DeltaFex includes dual inputs and outputs which allow for four operational modes. This compact, affordable unit also features 16 programmable effects including multiple reverbs and delays, compressor, pitch shifter, chorus, flanger, phaser, tremolo, rotary speaker, distortion, exciter and karaoke (vocal eliminator).

#### Dual DeltaFex® Effects Processor

### RBN™ Series

Ribbon drivers have been used in studio environments for decades, and Peavey developed a way to apply this high-quality sound technology to live applications resulting in a crystal-clear sound that no traditional compression driver can rival. To match the high-frequency performance of Peavey's ribbon driver, the RBN™ 110/RBN™ 112 are equipped with dual voice coil neodymium Scorpion® speakers, which feature Peavey's exclusive field replaceable basket technology.

<b>RBN™ 112 Ribbon Enclosure</b> 2-Way Powered 1 x 12" / 120mm True Ribbon Cabinet	014367636475	3612690	1999.95

<b>PV Series (carpeted)</b>			
Hartley Peavey founded Peavey Electronics on the principle of making high-quality, professional gear that sounds great but won't break the bank. We've been honing that art since 1965, and no sound reinforcement line combines performance and value like our PV Series. A full range of enclosures, subwoofers and monitors, the PV Series stacks up with heavy-duty loudspeakers, titanium compression drivers and impressive high-power handling.

## Installation Matrix Mixer/Processors

### Digitool Series

The Digitool MX 16, MX32 and Live are a family of digital audio processing units built on the rich history of the original Digitool MX and designed for the audio professional. These products have the power and flexibility to perform loudspeaker management functions in addition to matrix mixing, room combining and other audio processing functions for installed and portable sound systems. Each model features a full-color display screen, front navigation and editing controls, front panel input and output mute buttons and LED meters to simply configuration. They can also be configured using a Windows application via USB or Ethernet.
