**NEXT GENERATION TURNTABLE CONTROLLER** • The Reloop RP-8000 combines modern DJ technology in an advanced turntable. This hybrid high torque turntable does the balancing act between approved direct drive technology and a digital control section for your DJ software. The RP-8000 is able to communicate with any midi compatible DJ software - an additional modular controller is not necessary anymore. Serato Scratch Live mappings are also available with which the worldwide most popular and stable DVS system can be controlled. With the Trax encoder it is possible to scroll through your playlists and comfortably load tracks onto the decks.

- Advanced hybrid torque turntable with quartz-driven direct drive
- MIDI compatible control section consisting of Trax encoder, 8 backlit drum pads and 4 combinable performance modes
- Large Trax encoder
- Auto deck-assign feature
- Turntable link USB port

## AUDIO INTERFACES

### Tape

4043034152686

185.00

The mixtape is back! DJs...you know the situation. Inspiration hits you and you want to record a new live mix to share with friends or promoters online. The only issue is, there's no fast or hassle-free way of capturing the moment without the need of a computer and recording software. Reloop has created a smart solution to this problem with the launch of TAPE - an easy and secure digital recording device with the retro design of the beloved mixtape.

With TAPE, there are only 3 basic steps:

- Step 1. Connect your USB drive.
- Step 2. Connect your mixer and input cable.
- Step 3. Press the Record button. And that's it.

### iPHONO2

4043034143950

125.00

ULTRA PORTABLE PHONO/LINE USB RECORDING INTERFACE • The process of filing your irreplaceable vinyl collection just became a piece of cake. By plugging a turntable into the Reloop iPhono 2 USB audio interface, and then connecting this to a computer (PC or Mac), precious vinyl rarities can now be recorded digitally in crystal clear CD quality thanks to the high-quality digital drivers. It goes without saying that any other audio sources, such as tape decks or Minidisc players can also be connected to the interface for recording.

- Digitize your vinyl tracks quickly and easily
- USB phono/line interface
- Plug'n'Play system: no additional drivers necessary for Windows XP/Vista and Mac OS.X
- Headphones output with volume dial for monitoring
- Includes USB cable, PCDJ software (Reloop edition LE full version) and Loop Masters sample pack

### Play

4043034135740

185.00

USB DJ SOUND CARD WITH AN OUTSTANDING SOUND QUALITY IN POCKET SIZE • With this small but powerful interface Reloop presents one of the smallest DJ soundcards that can be found on the market – with an outstanding 24 bit sound quality. Special hi-gain outputs allow an extremely pounding club sound catering for lowest latencies while spinning, granted by the USB 2.0 ASIO/CORE driver technology.

- Ultra portable 4-channel DJ audio interface with 24 bit resolution
- Hi-speed USB 2.0 with low latency ASIO/CORE Audio drivers
- Hi-gain outputs for powerful club sound
- 2 stereo RCA outputs for use with an external DJ mixer
- Compatible with Mac OS X and Windows XP/Vista/7

**RELOOP STUDIO GEAR PRESENTS THE SHP-1** • The SHP-1 is an indispensable tool that enables you to cope with your everyday studio work with perfection. A special characteristic of the SHP-1 is its neutral sound reproduction which is essential for studio applications. The SHP-1 reproduces a detailed frequency spectrum which allows wiping out interfering frequencies at an early stage during production. A balanced bass range, precise mids and crystal clear highs give an unaltered impression of your productions while at the same time avoiding unpleasant surprises when hearing the track later in the club. The high output guarantees distortion-free playback, thus meeting all demands when it comes to studio headphones.

- Neutral studio sound reproduction
- Excellent comfort for studio sessions

50.00

As consequent advancement of the popular RH-2400 series, the successor offers an even more precise bass sound thanks to the completely closed construction. Despite powerful kicks the sound characteristics remain transparent: Brilliant mids and highs and high output make monitoring and mixing easy. Improved wearing comfort could be realized due to reduced weight and a new headband construction. The bordered Reloop sign on the ear cups top off the new RH-2500's appearance.

- Professional DJ headphones with swivel/fold-in construction
- Closed construction
- One-sided cord routing (oxygen-free copper strand)
- Excellent sound characteristics and precise reproduction
- Sturdy construction, high output capacity

Retail**CARTRIDGES & STYLI****Concorde Black**

5705796031553

125.00

The Concorde stylus boasts low vinyl wearout characteristics and a spherical stylus, while especially good sound characteristics emphasise its quality as a good all-rounder • Direct SME mounting • Colour: Black • Identical to Ortofon Concorde ProS.

**Concorde Blue**

5705796031546

149.00

This reliable, all-round performance cartridge with spherical stylus guarantees strong tracking with high output and low friction • Colour: Blue • Identical to Ortofon Concorde DJS.

**Concorde Green**

5705796031539

185.00

Analog and digital worlds collide in the Reloop Concorde Green cartridge, resulting in the perfect unit designed for use with timecode records. Thanks to its high output voltage, the stylus is able to reproduce timecode signals in an especially precise way which also reduces record wear • Colour: Green • Identical to Ortofon Concorde Digitrack.

**Concorde Vibe**

4043034162999

249.00

The Reloop Concorde VIBE made by Ortofon completes the successful range of Reloop cartridges. The elliptical stylus, high output level and flat frequency response of VIBE makes this cartridge ideal for club and studio use • Identical to Ortofon Concorde Night Club MKII.

**Concorde 20 Years**

4043034161398

160.00

20 year anniversary edition • To celebrate their 20th anniversary, Reloop are proud to introduce an exclusive limited edition Concorde cartridge designed to perfectly complement their RP-7000GLD turntable. The cartridge boasts a broad stylus profile with extremely low vinyl-wear characteristics while retaining a premium sound performance, making it a true all-rounder. **While supplies last.**

Retail**FLIGHT/ROAD CASES & ACCESSORIES****TTM Case Tray**

4043034147989

560.00

The Reloop TTM Case Tray offers the best touring quality - the massive construction made of coated wood, manifold reinforced counterforts and large angles, riveted carrying handles and protective corners guarantee reliability for professional applications.

- Professional console case
- Appropriate for 2 turntables plus mixer
- Cover can be used as console stand
- Transport rollers
- Extremely sturdy construction
- Laptop tray, lockable
- Rotund ball corners
- Protective padding

**CDM Case Tray**

4043034146951

499.00

The case offers room for two 12" table top players and a 12" mixer. The CD drive slots on the front side have separate blinds. In the mixer compartment there is enough room for a Reloop RMX-40 or a Pioneer DJM-800. These devices are adequately protected by quality manufacturing and the sturdy materials like all Reloop cases. Furthermore this professional case offers an additional tray for laptops, rendering digital spinning even more comfortable while the screen always remains in one's range of vision.

**Tablet Stand**

4043034159241

30.00

The Reloop Tablet Stand is a sturdy, compact and extremely flexible solution when it comes to integrating a tablet or smartphone into your workstation. Thanks to its light, retractable and compact construction, the pocket-sized Reloop Tablet Stand is convenient and portable. Its rubberised feet and smooth protective inlay guarantee a firm and safe foothold for your device. The fully adjustable squaring mechanism with push-lock function allows you to vary the viewing angle to suit a horizontal or vertical setup. Whether you're looking to stream videos or integrate a tablet into your DJ setup, the Reloop Tablet Stand is the smartest choice.

<b>Modular Stand</b> The Reloop Modular Stand was designed to exactly fit the performance pad controller Reloop Neon, guaranteeing solid foothold with ideal working height. Ideally, the Reloop Modular Stand is positioned near a turntable, allowing comfortable access to the sample, cue, loop and effect sections. Thanks to convenient snap-in knobs, the Reloop Modular Stand's setup is quick and easy. The stand is also compatible with other modular controllers, effect devices or even the iPad and it can also be used in the studio, in order to position your desktop synthesizer or drum machine at an ideal working height.	4043034156981	75.00
<b>Controller Station</b> The Reloop Controller Station can hold a controller as well as a laptop, all on one device. The sturdy metal construction is easy to assemble. Via 8 adapter pieces it is possible to adjust a width up to 44 cm and offers space for a controller with a depth of up to 36 cm. Flexibility guaranteed due to the height adjustment. The Controller Station is a flexible and universal stand for all purposes.	4043034158893	85.00
