--	--------------	--------------

Pitch 'n Time is a high quality time stretching and pitch shifting technology that premiered in 1998 to revolutionize the way we work with audio in the studio environment. Pitch 'n Time allows changes in the original length of a piece of audio to be changed without effecting the quality of the overall performance. It also allows the fundamental key of the audio to be changed up or down in pitch (or transposed) without compromising quality, definition or intelligibility.

Pitch 'n Time LE
(For Logic)

Pitch 'n Time Pro
(For Pro-Tools)

Pitch 'n Time LE

Previously only available on the Pro Tools platform, this award winning technology is now available as a plug-in for Logic Pro! - Download.
