Installation Mixers

MZ-223

43774033492

549.00

Multi-channel, multi-zone mixer housed in a compact 2U design, The TASCAM MZ-223 offers versatile multi-zone audio routing, mixing, and segregation of several audio sources simultaneously. Source content can include music, spoken word (microphone), phonograph, and more - all easily controlled via familiar sliders and assignment controls on the front panel. Designed for easy integration in virtually any system, the TASCAM MZ-223 is ideal for small format install applications such as moderate sized hotels, restaurants, meeting rooms, schools, or any situation that demands independently routed audio.

MZ-372

43774033508

699.00

Designed for permanent installation, the TASCAM MZ-372 offers versatile routing, mixing, and control of multiple audio sources in an attractive easy-to-operate 3U package. For maximum flexibility, source content can include music, spoken word (microphone), turntable, and more - all easily controlled via familiar sliders and assignment controls. The MZ-372 allows multiple audio sources (19 total) to be mixed, muted, and routed to two (2) redundant outputs, controlled by familiar volume sliders and assignment buttons. Input signals can be inserted via six (6) audio channels, each consisting of two (2) sets of unbalanced RCA-type stereo pairs, and six (6) XLR inputs for a total of twelve (12) sets of RCA-type inputs and six (6) XLR inputs. In addition, channels 2/3/4 can be set to accommodate phono-level signals for use with a turntable.
