System Components

MyMix

myMix makes it easy for musicians to create their own personal mix • User friendly interface • Color LCD display • Input signals appear as named channels • Control volume, tone, pan and effect level • Systems with more than two units connect via standard Ethernet switches • Can be powered with the included external power supply, or over Ethernet • Uses new Ethernet AVB protocol • Dual inputs for dynamic and condenser microphones (phantom power switchable) as well as line level sources • 4-band fully parametric stereo output EQ with selectable high and low shelving filters. Record up to 18 tracks (16 individual channels + your stereo mix) of multi-track audio to SD card for use with any recording software, 24 bit, 48kHz time-stamped uncompressed .wav files. Dual balanced line level outputs plus a stereo 3.5mm jack for headphones, in-ear monitors, stage monitors or main PA systems • Mic stand adapter included • Multiple applications include rehearsals, concerts, recording sessions, live recording, songwriting, karaoke, archiving, and house of worship.

899.00

RX-2

Rack-mountable remote controlled networked mixer for myMix system • Solid metal housing (1U) • Operated by myMix Control web browser based interface • Same mixing capabilities as standard myMix • For mix outputs from myMix System (to feed wireless IEM transmitters) or internal submixes • High quality, low latency Audio Over IP on CAT5 • Two balance line level outputs (XLR) • Optional 19" rack-mount kit - holds 3 Rx-2 in 1U • Fully compatible with all myMix devices.

779.00

MyMix CONTROL

899.00

Install Components

MyMix Install

Get HD audio in your building wherever you need it • The solution where a stylish, clean housing is required in permanent installations • Two mic/line inputs with switchable phantom power • Decentralized Network Design • High quality, low latency Audio Over IP • 100MB/s Fast Ethernet with CAT5 cabling • Two mic/line inputs & stereo mix output • myMix CONTROL web browser for configuration • Intuitive, patented user interface • Desk- or Wall-Mount • Connections on Euro Block • Fully compatible with all myMix devices

1439.00

WMB01

In-wall mounting box for myMix INSTALL

129.00

Input Expanders

IEX-16L

1399.00

16-channel analog input expander for the myMix system - 2x rear panel DB25 connectors for (8 channels per connector) for analogue line level signals - up to 16 balanced line-level signals can be fed to unit from devices such as mixing consoles or external microphone pre-amps - IEX-16L can be connected to a single myMix unit without the need for a switch - The IEX-16L can be configured through myMix devices, including channel naming and stereo linking - Configure odd-even channel pairs in dual mono or stereo from within any myMix on the network - Optional +6dB and +12dB digital gain on each channel - Front panel signal and peak LED indicators per channel. - IEX-16L inputs can be combined with local myMix inputs - Multiple IEX-16L units can be linked for additional inputs (switch w/ IGMP snooping capabilities required) - Includes power supply - 1RU

IEX-16LA

Same as above with additional 2x8 channel digital inputs in ADAT format (24-bit - Tascam Pinout).
